

# Basketball Project using QlikView

---

## Project Details:

- You are provided with a .zip file containing CSV files for the source data.
- Create your data model and build an application using the CSV files in QlikView.
- You will be graded on the analysis of data, visualizations, choice of charts, choice of colors, creativity, design of the application, and the correctness of your data.
- Create a Powerpoint document to summarize your findings, list the problems faced, and make recommendations based on your findings (if applicable).
- **Due Date: 11/13/2016 11pm**
- **10% marks will be deducted for late submission per day**

## Deliverables:

- Turn in a .zip file containing the following:
  - .qvw file
  - Text file containing your entire Script
  - Word document containing Snapshots of your QlikView model and visualizations
  - PowerPoint presentation
